ABOUT ME

I am a web developer with over 10 years of experience in web development and design. My expertise lies in working with frameworks like React and Next.js, focusing on optimizing performance and developing scalable web applications using modern technologies. My experience across various projects, including troubleshooting and improving outdated structures, has equipped me with the ability to deliver innovative and efficient solutions. I specialize in developing complex user interfaces and integrating them seamlessly with different systems, achieving successful outcomes in my projects.

WORK EXPERIENCE

- Feb 2024- Now
SAAD (Saderat Bank - bsi.ir) | Elahie St., Tehran
FrontEnd Web Developer
In this company, my focus was primarily on front-end development using technologies such as React, with an emphasis on Next.js SSR. My main responsibilities included maintaining existing projects, refactoring problematic projects, and developing new ones. The projects I worked on at this company are listed below:
 1. **TOSIGH** (Maintenance, Develop, Code Review) | www.set.bsi.ir
 2. Accountdelegation (Develop | NEXTJS) | www.vekalatitest.bsi.ir
 3. Accountdelegation Backoffice (Develop | NEXTJS) | It's not public.
 4. **SAPP** (Maintenance | REACT) | www.sappweb.bsi.ir
 5. SIMA (Maintenance | REACT) | It's not public.
 6. NOVIN CHEQUE (Develop | NEXTJS) | It's not public.
 7. SHAPARAK Backoffice (Develop | NEXTJS) | It's not public.
 8. SHAPARAK (Develop | NEXTJS) | It's not public.
 9. CASHMANAGMENT (Develop | NEXTJS) | It's not public.
 10. sep-panel-ui (Develop | npm package) | parsiaghayi.github.io
- Aug 2017 - Feb 2024
Safir | Molasadra St., Tehran
FRONTEND Developer
At this company, I handled all tasks related to web development, including website design, front-end and back-end implementation, working with WordPress for blog development, and ultimately redesigning the entire website using React for the admin panel and Next.js for the e-commerce website.
 1. Online Store (Develop | NEXTJS) | www.safirstores.com
 2. Admin Panel (Develop | REACT) | I can not mention for security reason.
- May 2014 - May 2015
Steel Alborz | Jordan St., Tehran
Web Designer
This was the first company I worked for, and as a result, I was solely responsible for designing the company's web pages.

EXPERTISE

- **Core Skills:**

1. **React:** Proficient in developing modern web applications using React.js, with a focus on component-based architecture and efficient state management.
2. **Next.js:** Expert in building server-side rendered (SSR) and static sites with Next.js, leveraging its powerful routing and API capabilities for enhanced performance.
3. **JavaScript (ES6+):** Deep understanding of JavaScript fundamentals, including ES6+ features like async/await, promises, destructuring, and more, ensuring clean and maintainable code.
4. **CSS (SASS, Flexbox, Responsive Design):** Strong skills in writing scalable and modular CSS using SASS, Flexbox, and crafting responsive layouts that work across various devices and screen sizes.

- **Tools & Technologies:**

1. **Git (GitHub, GitLab):** Extensive experience with version control systems, including Git, and working collaboratively in teams using GitHub and GitLab for code management and CI/CD.
2. **Bootstrap:** Skilled in using Bootstrap for rapid UI development, ensuring consistency in design and responsive layouts across different projects.
3. **Tailwind CSS:** Proficient in Tailwind CSS for utility-first styling, enabling quick and efficient development of highly customizable and scalable user interfaces.
4. **REST APIs & Redux:** Adept at integrating and managing state with RESTful APIs and Redux for handling complex data flows in React applications.
5. **TypeScript:** Solid understanding of TypeScript for enhancing JavaScript projects with static typing, improving code quality and maintainability.
